AB The resin compn. contg. no halogen compds. comprises relative to 100 parts of a resin comprising (A) 60-99% of a **polycarbonate** resin and (B) 1-40% of a styrenic resin, 0.1-10 parts of (C) a silicone compd. contg. a functional group and 0.02-5% of (D) a fluoroolefin resin. The compn. can be used for producing a formed article having satisfactory impact resistance and excellent thermal stability while maintaining excellent flame retardancy.

ST silicone fireproofing agent **polycarbonate; polysiloxane** fireproofing agent **polycarbonate blend**; impact resistant **polycarbonate blend**
